

CITY INTELLIGENCE.

WEDNESDAY, July 20.
COURT CALENDAR FOR THURSDAY.—Circuit Court—Nos. 159, 160, 161, 162, 202, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237.

SUPERIOR COURT.—Before Chief Justice Jones and Judge Oakley.—Decisions.—Wm. Myer, plaintiff in error, vs. Jas Hart and Henry Hart, assignees of Mitchell, Action for recovery of goods sold. The question was whether they had been sold to defendant, and upon his result. The testimony was in variance, and as the Court below, which had a full knowledge of the case, has passed upon it, this Court does not feel that justice requires it should distract the verdict. Judgment affirmed.

Ruben Shaw and John Brown vs. Wm. Munroe.—The plaintiff, R. Shaw's schooner of a man named Smith, who was his co-owner with defendants. He had loaded a cargo of coal, which was shipped to Brown and Munroe, who took the vessel away from plaintiff and never paid her for what she cost. The plaintiff recovered \$1,000. The S. C. Marshall was willing to give up the cargo. Action of assumpsit was brought in the Court below for the value of the same. The Court held that an action of assumpsit could not lie. It should have been tried on the merits. Judgment reversed.

Reuben Mitchell vs. Edmund Kimball—Kimball and Sheldon and Sherman & Nye, had exchanged notes. One for \$300 had been discounted by plaintiff. Mr. Kimball who got rid of payment by the plea that an exchange note is not dischargeable, and said that the exchanges were to take place at a future time. The pleas were overruled and judgment given for plaintiffs.

Thomas Hope vs. Bengt Edlington.—The defendant became surety for a loan and was hired by a man named Golding, from plaintiff at \$30 per month. Complaint was made against Golding that he kept a disorderly house, and was cleared by defendant, at the instance of plaintiff, after he had been in possession about six weeks. The landlord sued for the first month's rent, on the strength of the contract, and contended that only a direct eviction on his part could invalidate. The defendant on his part, contended that he removed Golding, on the instance of the lessor, but that he did not have the right to do so. The court ruled that in cases of appeal they are bound to look at the merits of a case, and its judge of appeal gave judgment for the plaintiff.

John G. Corp vs. Wm. B. Farnham.—This was an action before a justice of the Court below. It had been brought to recover a commission for procuring \$3,000 in a loan and mortgage of property in Birmingham. Plaintiff was denied judgment on the ground that the sum was not obtained but \$15. The Court held that if the money had been obtained for two years the charge would have been right, and there was nothing to show but that it had been judgment reversed.

Richard Sutton vs. Geo. D. Baldwin.—This was a motion to set aside the report of referees. A policy of insurance in \$100 was effected at the New-York Marine Insurance Co., on the steamer Marco Bouras, bound from New-York to Buenos Ayres. The insurance was made by James Berger at the instance of Sutton. Baldwin had supplied the vessel, and also made advances to Sutton, and the policy was entered that the money, in case of loss, was to be paid to Baldwin, who was to give \$100 to Dr. Phillips, Amherst, N. Y. The steamer sailed from Boston and got into difficulties with the steamer Bermeille, where she was stranded, and a road less claimed her. The Insurance Company rejected the demand, and a suit was entered, but compromised, and Baldwin received \$900. McAdams went from New-York and some time afterward, presented to him a sum received from Baldwin, but did not know what became of the order. The referees decided that the company should be paid to plaintiff, as McAdams was dead, and also that defendant should receive but 25 per cent. commission instead of 5 per cent. that he had charged. The Court decided that the referee's award of 25 per cent. to defendant, ought to be made to plaintiff. Report of referees set aside.

Wm. Corp vs. Wm. B. Farnham.—This was a motion to set aside the report of referees. A policy of insurance in \$100 was effected at the New-York Marine Insurance Co., on the steamer Marco Bouras, bound from New-York to Buenos Ayres. The insurance was made by James Berger at the instance of Sutton. Baldwin had supplied the vessel, and also made advances to Sutton, and the policy was entered that the money, in case of loss, was to be paid to Baldwin, who was to give \$100 to Dr. Phillips, Amherst, N. Y. The steamer sailed from Boston and got into difficulties with the steamer Bermeille, where she was stranded, and a road less claimed her. The Insurance Company rejected the demand, and a suit was entered, but compromised, and Baldwin received \$900. McAdams went from New-York and some time afterward, presented to him a sum received from Baldwin, but did not know what became of the order. The referees decided that the company should be paid to plaintiff, as McAdams was dead, and also that defendant should receive but 25 per cent. commission instead of 5 per cent. that he had charged. The Court decided that the referee's award of 25 per cent. to defendant, ought to be made to plaintiff. Report of referees set aside.

Wm. Corp, et al., vs. Alanson Sherwood.—A law of Congress persons putting repairs on a vessel he allowed to hold said vessel in her during her continuance in the port where the repairs were made, and for 12 days thereafter leaving said port. The plaintiff repaired the steamer Northern Star at New-York, and the defendant at New-Orleans, up the North River, near Newburgh, where he was followed in the early part of August, and attacked under the hen, but saved by defendants. The plaintiffs contend that the meaning of the act embraces the whole Southern district, in which New-Orleans is situated. The Court ruled that the act did not cover so large a portion of the U. S. Coast, as was held that the harbor of New-York did not comprehend an interior river, in which opinion this Court entirely agrees. Verdict for defendants.

Wm. S. Seymour vs. John Mills.—The defendant had given three notes for \$300 each to take up (as his share) a specialisation note of \$4600 at the East Broadwater Bank, out in which his name did not appear. He had been deceived in giving the notes, but not by the Agent of the New. His note denied.

POLICE OFFICE.—MORE COUNTERFEITING ON THE GREENWICH BANK.—On Tuesday evening a man named John Schultz was arrested at the intersection of Washington Street, No. 93 Greenwich-street, as an attempt to pass him another of the spurious bills in circulation, of the denomination of \$3, on the Greenwich Land. Schultz offered it for payment of a sum due him, and it was accepted, but was not being very well received, as it was not all the money when he tendered it. Some one thought proper to arrest him, and on arriving at the watch-post he was in good money was soon upon him. He was fully committed to answer.

STEALING FROM THE INSPIRABLE.—A man named Michael Bell was caught on Tuesday evening robbing a man who was lying intoxicated on the side-walk near William-street, in a state of insobriety, of his hat. A watch was taken off him, however, caught him and he was taken to the Police and duly committed.

ANOTHER BURGLARY ON A LARGE SCALE.—On Saturday night at the store of Messrs. Lee & Price was broken into and \$600 in promissory notes, \$250 in due bills, a \$10 bill (overbilled) on the Hudson River Bank, \$200 in coins, etc., taken. The burglar had got into the store through a certain back door, and the door and window were broken. The burglar, observed with them, they were however commanded to answer.

A PET LARCENY.—John Murray was arrested for having stolen a peacock from Peter G. Stamps, No. 372 Washington-street, on the 11th inst., and which he valued at \$90—fully committed.

CORONER'S OFFICE.—ANOTHER SUICIDE BY A FEMALE.—The Coroner yesterday held an inquest at No. 25 Mulberry-street, on view of the body of a woman of the town, named Jane Willis, aged 23 years, a native of Baltimore, who committed suicide on Tuesday evening by taking laudanum, which she purchased at a drug store in the neighborhood about 8 o'clock, and died about two hours afterwards. Verdict—suicide by taking laudanum.

The following recommendation of a popular medical man is published for the information of those whom it may interest.
NEW-YORK, July 12, 1842.
Mr. Schreiter—Sir:—Upon your request that I would furnish you with a notice of the progress of my experiments in counteracting Cordial as a remedy for Dyspepsia, which though I have been for some time affected with it, I find it difficult to state that I have found in experiments with my digestive organs, a certain number of vegetables, which are often to be found in the vegetable diet, and this state of things occasioned a frequent suspension of the action of the heart, one of the most distressing symptoms of which is a violent palpitation. Your Cordial seems to have been greatly relieved by some of them, and I hope to have recommended them to your patients, and to those to whom they will be useful.

The Blue Plains Bank, a dividend of 4 per cent. payable August 1st.

The Bank of Kentucky has declared a dividend of \$150 on all of its capital stock that have been or may be presented for recognition on or before the first Monday in September next, payable on and after the first Monday in October next, to Eastern stockholders, at the Bank of America in this city, and to the Bank of North America in Philadelphia, the 1st of November.

In consequence of the temporary Water Loan becoming due in August, September and October not being renewed, in order to provide for the payment of such loans, and also with a view of placing the loans in a position that there is a probability of having the means of redemption without renewal, C. W. Lawrence, City Treasurer, advertises for a temporary Water Stock, to be issued under the authority of the Act of the Legislature, passed May 26th, 1841, at an interest of 7 per cent. annually, payable quarterly, and for an amount sufficient to meet the stock falling due redemptions in 1842. We understand that the amount taken to day is \$20,000. Mr. Astor proposed for the whole loan, (\$200,000), but the Treasurer awarded him only \$100,000, in order to give other citizens an opportunity to get the stock.

The Poughkeepsie Bank has declared a dividend of 4 per cent. payable August 1st.

The Blue Plains Bank, a dividend of 4 per cent. payable August 1st.

The Bank of Kentucky has declared a dividend of \$150 on all of its capital stock that have been or may be presented for recognition on or before the first Monday in September next, payable on and after the first Monday in October next, to Eastern stockholders, at the Bank of America in this city, and to the Bank of North America in Philadelphia, the 1st of November.

In consequence of the present demand for F. Brown's Sarsaparilla and Tomato Bitters, the proprietor has been compelled to import a large supply of the real Spanish Sarsaparilla expressly for the purpose of manufacturing them, so as to have them made of the best materials. The great demand for Brown's Bitters, however, has compelled him to suspend the manufacture of his other articles, and a certain number of his digestive organs were often to be found in the vegetable diet, and this state of things occasioned a frequent suspension of the action of the heart, one of the most distressing symptoms of which is a violent palpitation. Your Cordial seems to have been greatly relieved by some of them, and I hope to have recommended them to your patients, and to those to whom they will be useful.
